THE COMPANY BEHIND THE CAR

Say hello to Dongfeng.

You may not know the name yet. Most of the world does. Dongfeng has built vehicles since 1969, employs around 127,000 people, and sits at number 188 on the Fortune Global 500, where it has appeared for more than twenty years running.

Close to 60 million Dongfeng vehicles have been built and sold, in more than 100 countries.

Dongfeng is new to Jamaica. Bert's is not.

Bert's has supplied this island with parts since 1988, roughly 120,000 of them. The first question anyone asks about an unfamiliar badge is whether they will get parts. That one is already answered.

Vehicle shown is the Dongfeng Max in white

HIGHLIGHTS

The whole car, in eight lines.

430 km on a charge.

Dongfeng's CLTC figure. 310 km on the stricter WLTC test. No petrol, ever.

Right-hand drive.

Built for roads like ours, with the driver on the correct side.

945 litres of boot.

With the rear seats down, in a car 4,020 mm long that parks anywhere.

Level 2 driver assistance.

Emergency braking, adaptive cruise, lane keeping and a 360 degree camera.

43.89 kWh lithium iron phosphate battery.

The long life chemistry. Fast charges to 80 percent in about 30 minutes.

Frameless doors and hidden handles.

Details you expect on cars costing twice as much.

A driver's seat that lies flat.

Heated, ventilated, with memory, and a rest mode for the middle of the day.

7 year warranty.

Powertrain and battery to 10 years, no mileage limit. Servicing included for 3.

DESIGN

Small car. Big ideas.

The doors have no window frames, which Dongfeng says is unique among the cars it benchmarks the Box against. The handles sit flush and present themselves when you unlock. A full width light bar across the nose gives the car a face people remember, and the two tone floating roof gives it a shape. Seventeen inch alloys are standard.

Vehicle shown is the Dongfeng Box in white.

A wide-angle, front-facing view of the interior of a car. The dashboard and door panels are covered in a dark material with a quilted diamond pattern. A large, rectangular infotainment screen is mounted in the center of the dashboard, displaying a home screen with various app icons and a clock. Below the screen is a horizontal console with a storage compartment. The steering wheel is on the right side of the car, featuring a circular design with a logo in the center. The rearview mirror is mounted on the windshield. The car's interior is well-lit, with ambient lighting visible along the edges of the dashboard and doors.

INSIDE

Quilted, soft, and the wheel on the right.

The dashboard and door trims are soft touch, stitched in a diamond pattern. Thirty two colours of ambient light run through the cabin, the rear view mirror is frameless, and the 12 inch centre screen floats above a console that keeps your phone, your bag and your coffee where you can reach them.

Interior of the Dongfeng Box in grey and black, right-hand drive, the trim on our cars.

REST MODE

One button, and the seat lies flat.

The driver's seat adjusts electrically, is heated and ventilated, and remembers your position. Press one button and it reclines fully flat, the windows close and the air conditioning settles, which Dongfeng calls rest mode.

Twenty minutes in a car park at lunchtime, or a quiet hour while the children are at practice. Nobody else in this class offers it, and once you have used it you will not want to go back.

THREE NUMBERS THAT MATTER

430

km on a charge
310 km on the stricter WLTC test

43.89

kWh battery
lithium iron phosphate, the long life chemistry

945

litres of boot
rear seats folded

Range figures are Dongfeng's on the CLTC and WLTC test cycles. With the air conditioning on and highway speeds, plan on roughly 70 to 80 percent of the CLTC figure. That still covers Kingston to Montego Bay on one charge.

SPACE

Four metres long.
Five seats. No apology.

The Box is 4,020 mm long and 1,810 mm wide, on a 2,663 mm wheelbase, which Dongfeng says is the longest among the cars it benchmarks. Because there is no engine in the way, that wheelbase goes into the cabin, not the bonnet.

Fold the rear seats and the boot grows to 945 litres. Under the bonnet there is room for the charging cable, so it never lives in the boot.

STORAGE

A drawer, a table, and a place for the bag.

Dongfeng designed the Box around the things people actually carry. A drawer slides out from under the dashboard for the small things, the passenger side has a fold out table, and there is a dedicated space for a handbag between the front seats.

The floating centre armrest hides a deep box, there is a proper cosmetics compartment with a soft light mirror on the driver's side, and wireless phone charging sits where the phone lands anyway.

CHARGING AND RANGE

Charge at home. Forget the petrol station.

Plug in at home on a Type 2 connector and the 6.6 kW on board charger fills the battery overnight. On a public CCS2 fast charger it takes about 30 minutes to reach 80 percent, roughly the length of a lunch.

The battery also works the other way. Vehicle to load lets you run appliances from the car, at the beach, at a family day, or when the power goes.

THE ELECTRIC DRIVE

Ten parts in one, and the most efficient in its class.

Dongfeng's Mach E electric drive folds the motor, gearbox, inverter and charging electronics into a single unit. It was the first drive assembly certified above 91 percent efficiency by China's automotive research centre, which awarded it an Energy Efficiency Star.

91.9 percent

electric drive efficiency, which is why a 43.89 kWh battery goes 430 km.

70 kW, 160 Nm

from a permanent magnet motor: 0 to 50 km/h in under five seconds, 140 km/h flat out.

Zero

oil changes, spark plugs, timing belts or exhaust. The service schedule is short because there is less to service.

YOUR WARRANTY AND YOUR PARTS

The Bert's promise.

A warranty is only worth the company standing behind it. Ours has been on this island since 1988.

7

years or 300,000 km
vehicle warranty

10

years
powertrain warranty

10

years
battery warranty

3

years scheduled
servicing included

Parts, answered up front.

Bert's Auto Parts has supplied Jamaica since 1988 and carries roughly 120,000 lines. Dongfeng parts are stocked here, not ordered once your car is already off the road.

Charged and serviced where you bought it.

Scheduled servicing for the first three years is included. Our technicians are trained on the high voltage system, and every visit is recorded against your vehicle.

The extended cover is for the first owner, in private use, with every scheduled service done on time at Bert's Service Centre with genuine parts. Full conditions are in the warranty agreement supplied with the vehicle.

TECHNOLOGY

A screen you can read, and a car that watches the road with you.

- 01 12 inch centre screen.** Map, media and settings on a floating display, with a 5 inch digital driver display behind the wheel. Phone mirroring, Bluetooth, DAB radio and wireless phone charging.
- 02 Level 2 driver assistance.** Automatic emergency braking, forward collision warning, lane departure warning and lane keeping, adaptive cruise, and intelligent cruise assist that handles traffic jams and highways.
- 03 360 degree camera and fatigue monitoring.** Cameras all round for parking, rear radar, direct tyre pressure monitoring, and a system that notices when the driver is tired.

COLOURS

Six colours.

STONE WHITE

MOONLIGHT SILVER

LIGHT BLUE

FANTASY PURPLE

GLAZED GOLD PINK

METROPOLITAN RED

All six are available to order, most with a stone white roof. Interior is grey and black. Images are for reference. Final colour availability is confirmed when your order is placed.

SPECIFICATIONS

Box E3, 430 km.

Motor	Permanent magnet synchronous, front
Power	70 kW
Torque	160 Nm
Battery	43.89 kWh lithium iron phosphate
Range	430 km CLTC · 310 km WLTC
Charging	DC to 80 percent in about 30 min · 6.6 kW AC
Charge ports	Type 2 AC · CCS2 DC
Drive	Front wheel drive · right-hand drive

Top speed	140 km/h
Length, width, height	4,020 x 1,810 x 1,570 mm
Wheelbase	2,663 mm
Boot	945 L, rear seats folded
Wheels	17 inch alloys
Screens	12 inch centre, 5 inch driver display
Power out	Vehicle to load
Seats	5

Vehicle warranty up to 7 years or 300,000 km · Powertrain and battery up to 10 years, no mileage limit · Scheduled servicing included for 3 years · Conditions apply

Figures are the manufacturer's for this grade and are subject to the actual product. Final specification is confirmed on your order.

Drive it. Then decide.

Everything on these pages is easier to judge from the driver's seat. Book a test drive, and if it is simpler we will bring the car to you.
