

DONGFENG · COMPACT ELECTRIC VAN · ELECTRIC

E-STAR V

A compact electric van with a CATL battery and room for cargo or up to 14 people.

300 km RANGE, LARGER BATTERY (NEDC)	36 min FAST CHARGE, 20 TO 80 PERCENT	7 m³ LOAD SPACE, LONG- WHEELBASE PANEL VAN	Up to 14 SEATS, LONG- WHEELBASE PASSENGER VAN
--	---	---	---

The E-STAR V is a compact electric van from Dongfeng's light commercial range, built on a 3-tonne platform. It comes as a two-seat panel van with 6 or 7 cubic metres of load space, or as a passenger van with up to 11 or 14 seats, on a 3,050 or 3,450 mm wheelbase. CATL batteries give 240 to 300 km on the NEDC cycle, and Dongfeng's specification table lists it with left or right-hand drive.

01

Left or right-hand drive

Dongfeng's official specification table lists the E-STAR V with left or right-hand drive; no right-hand-drive market has been named yet.

02

CATL battery, up to 300 km

A CATL battery of 41.86 kWh, or about 53.6 to 53.9 kWh, for 240 to 300 km on the NEDC cycle.

03

Quick top-ups

Fast charging takes the battery from 20 to 80 percent in 36 minutes.

04

Cargo or people

A two-seat panel van with 6 or 7 cubic metres of load space, or a passenger van with up to 11 or 14 seats.

05

Sized for town work

A 3-tonne gross weight, a 1.8-tonne rear axle and a compact 1,715 mm width for city deliveries.

06

European certification

Dongfeng lists EEC certification for the E-STAR V.
