

DONGFENG · COMPACT ELECTRIC SEDAN · ELECTRIC

E70

A roomy electric sedan for families, taxi operators and fleets.

401 km RANGE (CLTC)	680 mm REAR LEGROOM	502 L BOOT, E70 PRO	36 min DC CHARGE, 30 TO 80 PERCENT, E70 PRO
--	--	--	--

The E70 is Dongfeng's practical electric sedan: a big boot, a roomy back seat and up to 401 km on a charge (CLTC). In the Philippines it was launched for taxi and ride-hailing fleets, so it suits route-taxi and fleet operators as well as private buyers who want low running costs. Charge it overnight at home or at the depot, and skip the fuel station altogether.

- 01

Up to 401 km per charge

Up to 401 km on a full charge (CLTC), from a single-speed electric drive with a 150 km/h top speed.
- 02

Roomy rear seat

680 mm of rear legroom gives passengers space to stretch out, trip after trip.
- 03

Big boot

A 502 litre boot on the E70 Pro, with room for passengers' luggage or a week's shopping.
- 04

Built for fleets

Launched in the Philippines for taxi and ride-hailing fleets, with low quoted maintenance costs.
- 05

Fast charging

DC charging from 30 to 80 percent in about 36 minutes on the E70 Pro, quick enough for a driver's break.
- 06

Touchscreen as standard

A 9-inch control screen comes as standard.
