

DONGFENG · COUPE-STYLE COMPACT SUV · HYBRID, PLUG-IN HYBRID OR ELECTRIC

MAGE HYBRID & EV

The Mage as a self-charging hybrid, plus a restyled plug-in hybrid and an EV.

89 km

ELECTRIC RANGE, PLUG-IN HYBRID (WLTC)

1,189 km

TOTAL RANGE, PLUG-IN HYBRID (WLTC)

339 km

RANGE, ELECTRIC (WLTC)

215 kW

COMBINED POWER, HYBRID

The Mage Hybrid & EV are the electrified Mage models. The Hybrid keeps the body of the petrol Mage we already sell, charges itself and needs no plug. The Plug-in hybrid and the Electric have their own, newer styling. The Plug-in hybrid charges at home and covers up to 89 km on electricity (WLTC), enough for most commutes. The Electric drops petrol entirely, with 339 km of range (WLTC) and a 30 to 80 percent DC charge in about 28 minutes.

01

Serious hybrid power

The Hybrid's 1.5 litre turbo and dedicated hybrid transmission give 288 hp and 565 Nm, with 197 mm of ground clearance for rough roads.

02

Electric for the daily drive

The Plug-in hybrid runs up to 89 km on electricity and up to 1,189 km in total (WLTC), with 248 kW and 605 Nm through a 4-speed hybrid gearbox.

03

Quick top-ups, power out

The Electric charges from 30 to 80 percent in about 28 minutes on DC, and its 220 V outlet runs appliances straight off the battery.

04

Battery safety first

The Plug-in hybrid's battery sits behind a 1,200 MPa underbody with a honeycomb aluminium frame, and the Electric's can cut power in milliseconds in an emergency.

05

Driver assistance

The Plug-in hybrid has Level 2 driver assistance with the main safety assist functions, and the Hybrid has a 540-degree camera for tight spots.

06

Big-screen cabin

The Hybrid has a 13.2-inch touchscreen, a 10.25-inch digital cluster, a panoramic roof and a refrigerated front armrest box.

DONGFENG MAGE HYBRID & EV · SPECIFICATIONS

Comes as: Hybrid · Plug-in hybrid · Electric

BODY	Five-seat coupe-style compact SUV
POWERTRAINS	Hybrid and Plug-in hybrid: 1.5 litre turbo with electric drive. Electric: single motor, front-wheel drive
POWER AND TORQUE	Hybrid 215 kW, 565 Nm. Plug-in hybrid 248 kW, 605 Nm. Electric 120 kW, 240 Nm
BATTERY	Hybrid 1.9 kWh, self-charging. Electric 50.82 kWh LFP
RANGE (WLTC)	Plug-in hybrid 89 km electric, 1,189 km in total. Electric 339 km
CHARGING	Electric: DC 30 to 80 percent in about 28 minutes; 220 V power outlet
0 TO 100 KM/H	Electric 8.6 s
LENGTH	Hybrid 4,650 mm. Plug-in hybrid 4,685 mm. Electric 4,670 mm
WIDTH × HEIGHT	Hybrid 1,905 × 1,630 mm. Plug-in hybrid 1,900 × 1,615 mm. Electric 1,900 × 1,613 mm
WHEELBASE	2,775 mm, all versions
BOOT	Hybrid and Electric 360 L
GROUND CLEARANCE	Hybrid 197 mm. Electric 145 mm

Figures are Dongfeng's for its global export range and for Ecuador, with ranges on the WLTC test cycle. Jamaican specification, pricing and timing are not confirmed.
