EXTENDER RWD
(CLTC)**4.4 s**0 TO 100 KM/H,
ELECTRIC**360 kW**

PEAK POWER, AWD

The Free is the mid-size SUV from VOYAH, Dongfeng's premium electric brand, and it is already sold in Europe, the Gulf and Israel. It comes two ways: fully electric, or as a range extender, where a petrol engine charges the battery so a long trip never waits on a charger. The AWD versions have 360 kW, enough for 100 km/h in under five seconds.

01

Electric or range extender

The Electric carries a 106.7 kWh battery for 500 km (WLTP). The range extender pairs a 43 kWh battery with a 1.5 litre turbo petrol generator for up to 1,458 km in total (RWD, CLTC).

03

All-aluminium chassis

A lightweight all-aluminium chassis, with double-wishbone front and multi-link rear suspension.

05

One-piece triple screen

A one-piece, liftable triple-screen display spans the dashboard.

02

Sports-car pace

Two electric motors give the AWD versions 360 kW and 720 Nm. The Electric reaches 100 km/h in 4.4 seconds, and both top out at 200 km/h.

04

Adjustable air suspension

On the AWD range extender, air suspension gives 100 mm of height adjustment, useful on rough roads. The RWD version uses coil springs.

06

First-class comfort

Heated, ventilated and massaging front seats, baby-grade OEKO-TEX fabrics, a coconut-shell carbon cabin air filter and 13 storage spaces.

Comes as: Electric · Range extender

BODY	Five-seat mid-size SUV
POWERTRAINS	Electric, AWD; or range extender (electric drive, 1.5 litre turbo petrol generator), RWD or AWD
POWER AND TORQUE	Electric 360 kW, 720 Nm. Range extender RWD 200 kW, 410 Nm; AWD 360 kW, 720 Nm
BATTERY	Electric 106.7 kWh. Range extender 43 kWh
RANGE, ELECTRIC (WLTP)	500 km
RANGE, RANGE EXTENDER (CLTC)	RWD 318 km on battery, 1,458 km in total. AWD 259 km and 1,357 km
0 TO 100 KM/H	Electric 4.4 s. Range extender RWD 7.6 s, AWD 4.5 s
CHARGING	Electric up to 100 kW DC
