5,088 mm

LENGTH

The Passion is VOYAH's full-size sedan, sold in China and exported to Russia and Armenia. At 5,088 mm long on a 3,000 mm wheelbase it is a big car, with a 2.18 square-metre glass canopy over the rear seats. Export cars are plug-in hybrids with 1,260 km of total range (CLTC). In China there is also an Electric that reaches 100 km/h in 3.8 seconds.

01

Plug-in hybrid or electric

The plug-in hybrid covers 262 km on electricity and 1,260 km in total (CLTC). An Electric sold in China offers 580 or 730 km (CLTC).

02

Panoramic canopy

A 2.18 square-metre glass canopy gives rear passengers a wide view of the sky.

03

Screens for everyone

A panoramic triple screen and a centre control screen up front, plus a screen in the rear armrest.

04

Strong safety cage

Door rings and door beams of 2,000 MPa hot-formed, laser-welded steel, in a body that is 77 percent high-strength steel and aluminium.

05

Protected battery

Laminated aluminium-silicon mica protection, designed so the battery does not leak, catch fire, explode or spread heat.

06

Road-reading suspension

A predictive chassis reads the road ahead and readies the suspension before the car gets there.

Comes as: Plug-in hybrid · Electric

BODY	Five-seat full-size sedan
POWERTRAINS	Plug-in hybrid, AWD (export and China). Electric, AWD (China)
POWER AND TORQUE	Plug-in hybrid 390 kW, 810 Nm (China). Electric 375 kW, 730 Nm
BATTERY	Plug-in hybrid 43 kWh. Electric 82 kWh or 109 kWh
RANGE (CLTC)	Plug-in hybrid 262 km on electricity, 1,260 km in total. Electric 580 km or 730 km
0 TO 100 KM/H	Plug-in hybrid 6.0 s. Electric 3.8 s (82 kWh) or 4.2 s (109 kWh)
TOP SPEED	Plug-in hybrid 200 km/h. Electric 205 to 210 km/h
LENGTH × WIDTH × HEIGHT	5,088 × 1,970 × 1,505 mm (1,515 mm high on coil springs)
WHEELBASE	3,000 mm
KERB WEIGHT	Plug-in hybrid 2,245 kg. Electric 2,266 to 2,286 kg

Figures are Voyah's, on the China (CLTC) test cycle; power output for export plug-in hybrids is not confirmed. Jamaican specification, pricing and timing are not confirmed.
